AREAS OF ACTIVITY

We are Acrotecna: a small company with big ideas.

Acrotecna is a System Integrator and Solution Provider for Industrial Application.

Our expertise is in Hardware, Application Software, Project Engineering, Installation and the entire life cycle; maintenance and full support to our customer and their plants.

We combine 25 years of experience and professionalism of our team in the glass market with the passion of young engineers using the latest technologies for innovative solutions for application in Automation and Process Control Systems for glass.

We can provide a complete Process Control System, based on DCS or PLC, for the following applications:

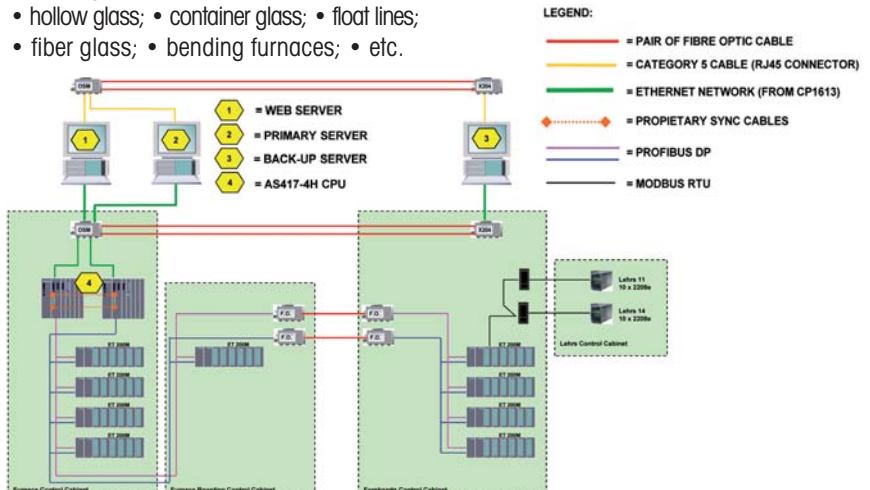

- hollow glass; • container glass; • float lines;
- fiber glass; • bending furnaces; • etc.

Company applications can be found in the following areas:

- batch houses; • melting furnaces; • fore-hearth controls; • lehr controls; • bath roof and lehr power control for float lines; • boosting systems (including power cabinets and solutions); • plant utilities such as cooling water, compressed air, energy monitoring, scraper control systems, etc.

We work through all life cycle phases of a Process Control System:

- feasibility studies; • engineering; • construction; • installation; • commissioning and start-up; • life cycle system maintenance.

RANGE OF PRODUCTS

- AUTOMATION • CONSULTING SERVICES • CONTROL & AUTOMATION SYSTEMS • ENGINEERING & CONSTRUCTION OF PLANTS • MEASUREMENT & CONTROL SYSTEMS • SOFTWARE • TEMPERATURE MEASUREMENT & CONTROL
