AREAS OF ACTIVITY

MSK Covertech Group - Your Cold End partner

More than 40 years of experience at the **cold end** have made **MSK** one of the leading equipment suppliers from lehrs to warehouses with **different levels of automation**. Customers appreciate MSK engineering, software and automation competence, as well as our unique and innovative systems.

The modular construction of **MSK bottle conveying technology** guarantees a high degree of flexibility, the best possible layer pre-forming and fully automatic flow of bottle transport.

MSK's palletizing systems offer solutions whatever performance and flexibility is required. **MSK robots and palletizers** can handle bulk and cases. Thanks to **patented innovations**, down times for job changes are minimized.

MSK shrink-wrapping solutions rank among the most sold machines in the glass industry: user-friendliness, availability and safety are the distinguishing MSK characteristics, as well

as efficiency and profitability. More than 500 reference projects or proven efficiencies of more than 99.5% underline MSK's leading position in the industry.

MSK EMSY visualization system controls the complete cold end. The processes in sophisticated bottle conveying, palletizing and packaging systems are becoming more complex. Increasing demands are placed on machines and systems with respect to their functions. As developments and enhancements have been carried out 100% in-house, MSK adapts the system to individual needs and is independent from third parties for adaptation. With the new and easy to handle operating software MSK EMSY 5.3 the MSK cold end will run almost on its own!

With subsidiaries and representations, MSK is located close to its customers, also with fast and economic help thanks to its 24-hour emergency and online service.
